SANCTUARY ARC
GUIDANCE ON NEIGHBORING
HOME PAINT COLOR CONFLICTS

The ARC promotes home color diversity by implementing three simple concepts:

1. Homes cannot be painted the same color as the home on either side. For corner lots, “side” crosses the side street.
2. Homes cannot be painted the same color as the home across the street. The home that shares the most street frontage with your home is used for comparison, when property lines do not align.
3. The two concepts, above, also apply when the ARC considers the colors to be significantly similar, not just precisely the same. Below, are the colors the ARC voted as significantly similar, either in hue, and/or lightness/value.
